To the FCC:

You certainly don't make it easy for the public to register their comments. The website you listed (above) in your email cannot be located. I will let my senators know this.

Please know that as an American who treasures our democracy, I beg you to be wise in your decisions about allowing companies to monopolize media markets in a given area. Although I watch and listen to mainly PBS TV and PRI radio, the majority of Americans watch the major networks and listen to local radio stations. If consolidation is allowed, where will the diversity in reporting we so desperately require as a nation come from?

Please allow LESS, not more, consolidation.

Sincerely,  
Patrish Cahill
